REPORT OF OVERSEERS OF THE POOR

The poor relief account this year is not pleasant to contemplate.

Last year our report showed an expense of \$4,806.09 for poor off the farm, part of which was for cases which did not belong to Turner and for which we expected the town would be reimbursed. Some money has come in on these accounts but we still have rather heavy bills against other towns and some against the State.

Our total expense this year for poor off the farm has been \$7,258.21, of which \$4,109.22 is for our own poor.

The town farm account this year shows an overdraft of \$1,679.94. Analyzing this we find an unpaid overdraft from last year of \$441.29. One inmate, Alfred Coffren, cost the farm \$563.05, mostly hospital bills, with a return from his property of \$17.00.

There are two inmates at the farm now, Fred Marston and Guy Turner. Besides these there have been during the year four others part of the time. Linwood Sedgley for a short time, Mrs. Hattie Sedgley for a much longer time. These two left town and are getting their living. Mrs. Mabel Dent came to the farm from California, but is now with relatives. Alfred Coffren was moved from Fayette when his health failed so that he was not able to live alone. Eventually he died in the C. M. G. Hospital.

Livestock on the farm now is:

2 horses
14 cows
3 heifers
1 bull
1 hog
15 hens

About 31 bushels of red kidney beans were raised and some potatoes in excess of the farm's needs. These are being exchanged for groceries. All bills are paid to Feb. 1, 1940, except \$50.00 is due the superintendent of the Farm.

Respectfully submitted,

STELLA M. CHASE,
HENRY H. WHITMAN,
JOHN E. TEAGUE,

Overseers of the Poor.

REPORT OF SELECTMEN

We submit our report for the fiscal year ending February 1, 1940.

All bills which have been approved have been paid as usual.

One R. R. bond of \$1,000.00 has been paid. We were unable to pay anything more on town debt because of uncollected tax liens, uncollected poor bills due from other towns, and overdraft in our own poor account, both on and off the farm.

The expense for snow equipment this year has been for blades and parts for the plows, and one new sand-spreader. This gives the town two sand-spreaders.

The selectmen advise trading trucks this year as usual.

Some money has been collected on tax liens and two pieces of property have been sold.

Respectfully submitted,

HENRY H. WHITMAN,
FRED P. RICKER,
JOHN E. TEAGUE,

Selectmen of Turner.

As we understand the Lien Law all Liens automatically foreclose in eighteen months from the date of recording, that being the case the Liens listed under the years of 1937-1936-1935-1934 and 1933 are foreclosed and technically speaking the property covered by those Liens belongs to the Town.

My suggestion is that we try to have less Liens next year and I feel sure we can if we all pull together in this way, viz: When we have a dollar or a few dollars that we can spare, turn it over to the Collector and receive credit on the back of your tax bill; do not feel that you must wait until you have the whole amount of the tax but make a payment just as often as you can; now if we can do this we will have money coming in through the summer to pay bills with. Remember, all or nearly all of the money that the town has to pay bills with is the tax money or money hired in anticipation of taxes.

Let's do some team work next year.

Respectfully submitted,

EDWARD L. HASKELL,

Treasurer.

Report of White Pine Blister Rust Control Work

UNITED STATES

DEPARTMENT OF AGRICULTURE

Bureau of Entomology and Plant Quarantine

January, 1940

To the Board of Selectmen,

Town of Turner, Me.

Gentlemen:

We wish to show by the following report, the results obtained in your town on blister rust control work during 1939.

It has been a pleasure to have the cooperation of the selectmen and townspeople in our efforts to control this disease.

A crew was employed consisting of six W. P. A. men.	
No. of acres worked by crew,	2,858
No. of wild currant and gooseberry bushes	
pulled,	55,984
Amount of W. P. A. funds for labor,	\$1,547 84
Amount of W. P. A. funds for transportation,	28 43

Total amount spent for control work,	\$1,576 27
--------------------------------------	------------

Through the assistance of W. P. A. funds, we have made excellent progress in controlling this disease during the past few years. As there are additional white pine lands in your town which need protection, it is our desire to continue the control work this coming season.

As we did not use any town funds during the past season, we trust that you will hold over the 1939 appropriation, thus making it available in case we should need it during 1940.

Very truly yours,

G. H. KIMBALL,

Chief Scientific Aid, Plant Disease Control.

U. S. Department of Agriculture and

Maine Forest Service, cooperating agencies.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and citizens of
the Town of Turner:

May I present for your consideration my fourteenth
annual report of the Public School System in the Town of
Turner.

This year has witnessed the completion of one of the
greatest forward steps that the town has taken in Educa-
tion during the past twenty-five years. The new two-room
building completed at Turner Center is a structure of the
best type that could be provided for the funds available.
We cordially invite you to visit this building. The financial
story may be found in another part of this report and
need not be repeated here.

Many towns started a consolidation program from the
wrong end. The idea of expecting one teacher to do the
work of two or more has not proven satisfactory. How-
ever, the distribution of pupils in our schools today seems
to work quite well. You will note from the chart that the
teaching load has been equalized as much as possible.

During the coming school year an attempt will be made
to follow the school calendar printed below. However,
epidemics of disease may cause slight changes.

School calendar for 1940-'41 :

Term	Begins	Ends	Weeks
First	September 9th	December 20th	15
Second	January 6th	February 21st	7
Third	March 4th	April 18th	7
Fourth	April 28th	June 13th	7
			<hr/> 36

Graduation Thursday, June 12th, 1941.

During the past few years we have often heard that the school population was on the decrease. For the nation as a whole this has been true. However for particular areas especially near cities the reverse has obtained. The decrease in the size of the family has been the chief reason for the decline in school attendance in general. The stabilization and in some cases the increase in school population in these near city areas is caused by the moving of city families to the country, made possible to a large extent by a more widespread use of the automobile. Following is a chart showing the size of the first grade in the Town of Turner during the past fifteen years.

Average 35.8.

It would appear from the above chart that the population in the Town of Turner was remaining quite steady and that for the next few years we might expect our entrance classes to number about 35. This being true our present school facilities ought to be adequate.

This year the average of school rates is 12.75 mills while the average of municipal rates is 59.95 mills. According to a revision of the State Law, a Town to share in the State School Equalization Fund must have a school rate of 12.75 mills or over. The Town of Turner has a Tax Rate this year of 51 mills and a school rate of 11.3 mills thus depriving the town of additional funds through equalization.

There is another angle to this matter of finances that may be of interest to you. The average yearly wage of Elementary women teachers in the state is \$779.95. What is the average wage in the Town of Turner? \$599.76. For your school committee to pay wages equal to the average of the state it would be necessary to increase your appropriation for common schools by \$1,621.71. During the past few years the Town has decreased the appropriation for Common Schools by \$2,500.00 and at the same time the state has decreased its contribution by about \$600. A total decrease of \$3,100.00. We have at times been criticized for allowing a teacher who has been doing a satisfactory piece of work to move to another community where the wages are better. Under the circumstances existing how can we prevent this change?

Following are some charts showing the registration in the various schools and the list of teachers:

Average in years of experience—13.8.

Average pupils per teacher—23.5.

The close of the fiscal year shows the school accounts to be in good condition as you will note from the financial summaries which follow. The recommendations for the coming year contemplate about the same expenditures as during the past year.

An attempt will be made this year to combine the Local Red Cross work with the Lewiston Chapter of Red Cross. By this means it is planned to hold three Health Clinics, during which time Doctors, Nurses and Dental Hygenist will be available for examinations and conferences. These programs have worked well in other communities and should work well in Turner.

In closing my report I wish to thank all who have participated in making possible the work that has been done in our schools during the past year.

Respectfully submitted,

ISAIAH M. HODGES,

Superintendent of Schools.

REPORT OF THE PRINCIPAL OF LEAVITT INSTITUTE

Gentlemen:

The report of the principal of Leavitt Institute for the year ending February 1st, 1940, is here submitted.

The total enrollment for the present school year is 132. Of this number 84 were Turner students and 48 came from outside the town. In the dormitory we are feeding a total of 23 people including Mrs. Bray, her two sons and the two teachers. The busses are giving excellent service as usual. Mr. Hodgman's bus conveys about 24 students from South Livermore, Brettuns and Turner, while the bus through Greene and Leeds conveys about 21 pupils besides the grade students. The only financial contact the principal has had with any of the busses is to collect the bills and to see that checks from the treasurer of the Institute are duly delivered.

The principal wishes to take this opportunity to correct some misapprehension regarding the school store. This is run by students entirely for the benefit of the Activities Association. Mr. H. C. Leavitt keeps the books, receives all money taken in and pays the bills after they have been approved by the executive board and an order has been drawn by the president of the trustees.

Our library is growing year by year. The townspeople make some use of it, but not nearly as much as we wish they would. One visitor recently expressed amazement at finding in our library the very book he sought after an unsuccessful attempt to locate it in the State Library. Of course our books run more to reference work than to fiction, but we have a fairly good collection of each.

Among the improvements made during the past year might be mentioned a new Westinghouse electric refrigerator for the kitchen, a new coat of paint on the Institute building and an improvement in the interior of the foods laboratory in Berry Hall. During the next year we hope to make some much needed repairs in the basement of the Institute and in the gymnasium.

During the past year all graduates who were certificated for college have given a good account of themselves. No failures have been reported to date and some very fine grades have been received.

Our per capita cost last year was reduced by about \$8 per student so it was necessary to drop the tuition to outside students from \$90 to \$82.

Respectfully submitted,

EVERETT P. SMITH,

Principal.

TEACHERS. Mr. Smith is receiving \$2,500. per year. Mr. Fraser is receiving \$1,500. from us for the school year. The State pays him direct for the three summer months. He drew the maximum of \$200. for travel and adult evening classes for the 1938-1939 school year of which the State pays us back two-thirds. Mr. Thurlow taught a part of the year at the rate of \$1,265. receiving

\$553.27. Mr. Charles Bartlett completed the year at \$1,000. receiving \$550. Mrs. Smith receives \$1,212.50. Mrs. Hodgman \$740. Mrs. Young, \$610.50. Mrs. Thorne, \$1,012.50. Those in the Dormitory pay for their rooms and meals. Music Teachers are charged to Music Account.

THERE ARE NO NOTES outstanding against us and I know of no bills to be paid outside the usual routine.

THE BUS ROUTES which the Institute is conducting are in their second year and the experiment is being watched with much interest. Mr. Earle L. Hodgman furnishes transportation for the Livermore pupils. He pays all his own expenses and receives for pay the amount charged to the students. The Institute assumes the work, delay, and risk incident to collecting. Mr. Clifton Reed runs the Leeds-Greene Bus on the same terms except that he is guaranteed \$30. per week. He brings grade pupils to Howes Corner and Turner Center for which the Town pays the Institute \$12.50 per week.

THE INVESTED FUNDS are not radically different from last year. In the Leavitt Fund, 25 shares American Surety Co. were sold for \$1,364.28 and 40 shares Pacific Indemnity bought for \$1,360. 25 shares General Reinsurance cost \$1,137.50, and 40 shares Continental Insurance cost \$1,495.33. The \$5,000. Penn. Power & Light Bonds were called and yielded \$5,223. 10% of the income for the year was reserved against loss and added to the principal, amounting to \$276.68. The Central Maine Power Co. paid back dividends during the year amounting to \$393.75, a large item of income which we shall not have next year. \$1,000. So. Pittsburg Water Bonds was called and yielded \$1,019.50.

In the Copeland Library Account \$3,000. So. Pittsburg Water Co. Bonds were called and yielded \$3,058.50. 35 shares Pacific Indemnity were bought for \$1,207.50 and the rest of the money is in the Savings Account. A statement of the securities in all funds follows.

AUDIT of my accounts was made as of June 13th, 1939, by the State Audit Department. This included the Bank Balance, the Securities in the Funds, and the Report which I submitted at the annual meeting of our Trustees on that date.

Yours truly,

EARL B. HODSDON,

Clerk of Turner.

A record is being made in the office of the Town Clerk of the names and places of burial of all soldiers of the U. S. A. in Turner.

Will you please make additions and corrections that the record may be as nearly perfect as possible. Many are in need of markers which we hope soon to procure. I submit the record to date.

STATE BUREAU OF HEALTH
Annual Report of
Public Health Nursing Service
1939

The public health nursing service covers the nurse supervision of expectant mothers, infants, preschool and school age children. The report covers this general program and it is for this purpose which we are asking to have money raised to help continue the work by supplementing what is already being paid from State Bureau of Health funds. The work is carried largely through home visits and child health conferences. These contacts are made for the purpose of giving help in meeting the health needs of the family through advice and demonstration of methods of care in the home.

The encouragement of parents in the care of the family is most gratefully received. Through the nurses' home visits, medical supervision is urged where needed for treatment or correction of defects.

The importance of using the proper diet for maintenance of health and normal growth is discussed with families and aid given in planning food budgets.

The protection of children with communicable diseases, the protection of others from those who are ill and immunization against certain diseases is stressed. Whenever possible, child health conferences are held with the local people making the choice of examining physician and the

State Bureau of Health paying for his services. The nurse is always alert to any crippling condition in children and with the consent of the physician, the services of the crippled children clinics, which are held in several sections of the State, are recommended to the family.

As other defects are found, the nurse calls these conditions to the attention of the parents with recommendations to secure advice from physician or dentist regarding care or treatment. In cases where the cost of corrective work cannot be assumed by the family, the nurse endeavors to enlist the interest of groups or agencies to assist in meeting these needs.

There are many infants and preschool children in Turner and the mothers are very cooperative and interested in suggestions and advice.

In August a well child conference was held with good attendance.

In November a new mothers' club was formed in Turner Village with the help of the nurse.

PRESERVE THIS REPORT

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
